LIST OF CAPTAINS FROM KENTUCKY IN THE WAR OF 1812

This list is preserved in the Charles Stewart Todd Papers, folder 19, Manuscript Department, The Filson Club, Louisville, Kentucky. Undoubtedly it was among the papers of Gov. Isaac Shelby, whose daughter Letitia married Charles S. Todd, the son of Supreme Court Justice Thomas Todd. Because so many Kentuckians served in this war it should prove of interest as proof of service for these officers as well as in documenting the number of men in their companies and their county of residence. In *Kentucky Soldiers of the War of 1812* (Frankfort, 1891) reprint indexed edition Baltimore 1969, the following names on this list could not be found in the index: John Fortner, R. C. Megowen and John Dessert. They may be listed under a variant spelling that did not occur to the editor or they may be names not previously recorded. Variants found which clarify names on this list were Eleazor Heddin, Gustavus W. Bower, Conrad Overdewple (for Overdugh) and Joseph McCloskey (for McClaskey). Y. Ewing is Young Ewing and Matthew Flonoy is Flournoy. The printed report misreads Phillip Shiveley as Shireley.

New Port 1st September 1813

A return of Kentucky mounted volunteers mustered on the 30th & 31st days of August, and continued until the first day of September, 1813 at said Place, by the order of his excellency Isaac Shelby Governor of Kentucky and under his Command, to Join the North western army, under the command of Majr. Genl. W. H. Harrison.

GENERAL AND FIELD OFFICERS, KENTUCKY MILITIA, 1813

The original manuscript list is preserved in the Charles Stewart Todd Papers, folder 19, Manuscript Department, the Filson Club, Louisville, Kentucky. The document was owned originally by Todd's father-in-law, Gov. Isaac Shelby. The latest date in the text is 25 June 1813, but the manuscript itself is not dated, although it is reasonable to assign a year date of 1813 to it. The list was prepared during the War of 1812 as part of military preparations for the Governor. The last entries are incomplete and scrawled as though written in haste as an addition to the earlier entries which are carefully scribed.

18 March 1833. Harrison Co., Ky. **John Bruce** of said county declares in the fall of 1814 he rendezvoused at Newport, Ky., in the company of Capt. **Memorial Forest** of the 16th Regiment, Kentucky Militia, commanded by Col. **Andrew Porter**. He marched with the regiment to Fort Malden in Upper Canada where he was stationed until 5 April 1815, one month after the expiration of his term of service. He returned home with his health much impaired. On his march to Malden he had to pass through a tract of country called "Black Swamp" and in passing he was exposed to more than his constitution and system would bear and was attacked with violent rheumatic pains. He there contracted the disease which appears incurable for it has afflicted him ever since, notwithstanding all medical applications. On his passage through said swamp he became so disabled as to have to be placed on horseback and then supported. During the balance of the tour he was almost incessantly, more or less, afflicted with the most violent and excruciating pains. Whenever he is accidentally or otherwise exposed, even slightly, he is so affected as to be disabled from labor.

18 March 1833. Harrison Co., Ky. **John Mann**, late lieutenant, and **William Hutcherson**, a member of Capt. **Memorial Forest's** company, certify **John Bruce** contracted a violent rheumatism, from exposure, in crossing the "Black Swamp". The disease disabled Bruce from marching on foot and he was scarcely able to go forward on horseback.

11 Feb. 1833. Harrison Co., Ky. **Joel C. Frazer**, M.D., late Surgeon's Mate, 16th Regiment, Kentucky Militia, declares **John Bruce**, a private in Capt. **Memorial Forest's** company under Col. **Andrew Porter**, was mustered in at Newport, Ky., accompanied the regiment to Fort Malden in Upper Canada, and on the route through a tract of country lying between Forts Findley and Meigs known by the name of the "Black Swamp" from exposure to mud and water became violently affected with inflammatory rheumatism, so much so that he had to be transported on horseback in incredible pain. He has known him ever since and he has been subject on slight exposure to violent attacks of the disease and has for some time been unable to obtain a livelihood by manual labor.

15 March 1833. Harrison Co., Ky. **G[eorge] H. Perrin**, quarter master sergent in the 16th Regiment, Kentucky Militia, states since his return from the expedition he has engaged in the study and practice of medicine in Cynthiana. **John Bruce** was severely attacked with acute rheumatism.

10 March 1851. Harrison Co., Ky. **John Bruce** of said county declares he joined the company of Capt. **M. Forest** in the 16th Regiment, Kentucky Militia, at Cynthiana, Ky., 1 Oct. 1814 for six months and was discharged at Detroit, Mich., in April 1815.

10 March 1851. Harrison Co., Ky. **William Hutcherson** attests to Bruce's service.

22 May 1855. Harrison Co., Ky. **John Bruce** of said county, aged 65, applies for additional bounty land.

BOOK REVIEWS

INDEX TO THE VIRGINIA GENEALOGIST, VOLUMES 1 — 20, 1957 — 1976. John Frederick Dorman, compiler. 1981. 941 pp. \$40.00 Order from Genealogical Books in Print, 6818 Lois Drive, Springfield, Virginia 22150.

Of all finding aids the most welcome is a carefully prepared cumulative index. All too many genealogical journals are produced haphazardly with no index whatever. From its inception *The Virginia Genealogist* has provided a full name and subject index annually. Now in its twenty-eighth volume, *The Virginia Genealogist* ranks in the forefront of state genealogical journals with an outstanding record for publishing primary source material and compiled genealogies for Virginia. It has become a principal research source for genealogists and historians.

While the annual indexes have been a great help for quick location of specific references, they require an individual search through each year's index. Now in one book the first twenty volumes can be searched conveniently for a specific reference, saving time and effort.

Mr. Dorman is without question one of the finest genealogists ever developed in the United States and the leading modern authority on Virginia. Over the years he has produced a remarkable number of record abstracts for Virginia counties, compiled genealogies of individual families, scores of articles and has established *The Virginia Genealogist*. His diligence and willingness to create worthwhile reference sources is nowhere more evident than in this painstakingly produced volume.

Genealogical Books in Print deserves great praise for publishing this valuable book. No one working on Virginia and Kentucky families can afford to overlook it. It is essential for genealogical and historical libraries, who will find it used heavily by their patrons. We cannot commend this superb work too highly.

THOMAS STONESTREET OF BIRCHDEN, WITHYHAM, EAST SUSSEX, AND OF "BIRCHDEN" IN CHARLES COUNTY, MARYLAND, WITH HIS POSTERITY DOWN TO THE SIXTH GENERATION. Warren Skidmore. 1983. 119 pp. \$25. Order from the author, 171 Goodhue Drive, Akron, Ohio 44313.

The Stonestreet family is thoroughly traced in this well-researched genealogy. The unusual name aided Mr. Skidmore in his work. The family tended to be landed and prosperous, which provided good records to follow. Branches settled in Virginia, North Carolina, Ohio, Indiana, and Illinois. Several descendants settled in Kentucky, locating in Jefferson, Oldham, Jessamine and Owen counties.

Mr. Skidmore provides biographical accounts of the family members with full footnote citations to sources. He properly states when facts are not known. Appendices containing full accounts of Stonestreet records in Sussex, England are provided as is a listing of unplaced persons named Stonestreet. A thorough name index is included.

The one jarring error is the constant spelling "Farquier" for Fauquier County, Virginia.

Stonestreet descendants will find this a dependable book and should acquire a copy as it is limited to a hundred copies. Libraries collecting histories of individual families will not regret buying this book.

ROCKCASTLE COUNTY, KENTUCKY 1810 CENSUS, 1815 TAX LIST, 1820 CENSUS. 1979. 15 pp. \$5.50. ROCKCASTLE COUNTY, KENTUCKY 1850 CENSUS. 1980. 43 pp. \$10.50. ESTILL COUNTY, KENTUCKY 1810 CENSUS, MARRIAGE BONDS 1808 TO 1810. [8 pp.] \$3.00. ESTILL COUNTY, KENTUCKY 1820 CENSUS, MARRIAGE BONDS 1811 TO 1820. 1979. 23 pp. \$5.50. ESTILL COUNTY, KENTUCKY 1850 CENSUS. 1980. 56 pp. \$12.50. ABSTRACTS OF MADISON COUNTY, KENTUCKY WILLS, APPRAISEMENTS AND INVENTORIES 1787 TO 1805. 1983. \$7.50. MADISON COUNTY, KENTUCKY 1820 CENSUS. 1977. 35 pp. \$5.50. MADISON COUNTY, KENTUCKY 1840 CENSUS. 1979. 33 pp. \$5.50. Order from the compiler, Anna Joy Munday Hubble, Route 2, Whitefish, Montana 59937.

The availability of these fundamental records for Estill, Madison and Rockcastle Counties is most welcome. Little is in print for the eastern counties of Estill and Rockcastle and those with research interests there will be grateful to have access to these helpful sources. Madison is a large and populous county always popular with Kentucky researchers so the volumes dealing with Madison should be widely appreciated. The abstracts of early Madison County wills and appraisements should be of particular interest as a quick indexed guide to these important records. All names mentioned and all places of land holdings are listed. It provides valuable research information and clues for further research. The original pages in the manuscript are cited, which allows access to the full source record.

Researchers will want to consult these sources and genealogical collections in libraries will find them of interest to their patrons.

VIRGINIA GENEALOGICAL RESEARCH. George K. Schweitzer. 1982. 187 pp. \$9.00. Order from the author, 7914 Gleason, C-1136, Knoxville, Tennessee 37919.

Since Kentucky was part of Virginia until 1792 and because ties between the two states remained strong thereafter, researchers concerned with Kentucky families must also be interested in Virginia records as the origin of many Kentucky settlers is in Virginia.

Dr. Schweitzer has prepared a series of very good manuals for special research areas. His latest covers the Commonwealth of Virginia. The first chapter provides an historical overview of Virginia from its founding to modern times since good genealogical research requires an understanding of the history of the area covered. He clearly shows the differentiation in Virginia between the counties and the independent cities, several of which have now absorbed their parent counties. The geography of the state is described with an accompanying map. Virginia's geography has been important in determining settlement patterns and the various areas have distinct names, such as the Northern Neck, Southside, Middle Peninsula, etc.

The second chapter describes the various types of records both public and private. Included here are sections on vital records, cemeteries, Bibles, churches, printed county histories, city directories, periodicals, military records, atlases, newspapers and county records. A discussion of record locations is given in the third chapter. This covers courthouses, major libraries, regional libraries and collections outside Virginia. The last chapter covers each county alphabetically and lists the county seat, date of formation with parent counties and a citation to the discussion of that county in *The Virginia Genealogist* series on Virginia counties. Surviving records with dates are listed for court houses, other record repositories and libraries. Societies are listed with addresses. Printed county histories are cited with bibliographical details.

As with all Dr. Schweitzer's books, extensive bibliographies are provided for further research. This is always a most helpful feature.

We recommend this manual highly as a helpful aid for Virginia research and one you will want to consult frequently.

FEDERAL CENSUS WASHINGTON COUNTY, KENTUCKY 1850. Faye Sea Sanders. 1982. 103 pp. \$12.00. Order from the compiler, 311 Sage Road, Louisville, Kentucky 40207.

Once more Mrs. Sanders has brought to us a valuable record for Washington County. She has wisely transcribed the document in its original order so that whatever value the location of households and

method of enumeration holds is not lost. The 1850 census is the first to list all people by full name, age, gender, occupation and state of birth. So it is a very valuable and much consulted genealogical source.

A full name index is supplied for quick access to the transcription. The text is clear and Mrs. Sanders' by now great familiarity with the families of this old county give assurance of accurate transcription.

Obviously this is a source of the greatest interest for Washington County research. It deserves a place in every genealogical library with a Kentucky holding of any consequence and its moderate price makes it available to the individual researcher.

FEDERAL CENSUS MERCER COUNTY, KENTUCKY 1850. Faye Sea Sanders. 1983. 131 pp. \$13.00. Order from the compiler, 311 Sage Road, Louisville, Kentucky 40207.

Located in central Kentucky, Mercer County is full of history. Kentucky's oldest settlement, Harrodsburg, is the county seat and it was here that the famous colony of Shakers at Pleasant Hill was established. Due to the county's age and fame, this record holds special interest and we are glad to have it available for easy reference.

The census has been literally transcribed as it exists in manuscript form and fully indexed by each name.

Mrs. Sanders is to be commended for her most diligent work in transcribing early Kentucky records and making them available to a wide public. This is tedious, time-consuming and thankless work. We are greatly in her debt and the editor wishes to thank her for her tireless labor to preserve our irreplaceable past.

We recommend this work to the attention of researchers and to all diligent librarians.

THE SOUTHSIDE VIRGINIAN. Lyndon H. Hart and J. Christian Kolbe, editors. Quarterly. \$16.00 per annum. Order from Box 118, Richmond, Virginia 23201.

This is a welcome and promising addition to the ranks of independent genealogical periodicals. The original colonies are always of great interest to genealogists. Since it was the most populous colony, Virginia holds a special interest for researchers and because it was Kentucky's parent, Kentucky research is closely connected with the Old Dominion.

The Southside is that area of Virginia bordering North Carolina and lying below the James River. It includes the counties of Princess Anne, Norfolk, Nansemond, Isle of Wight, Southampton, Surry, Sussex, Prince George, Chesterfield, Dinwiddie, Powhatan, Greenville, Amelia, Nottoway, Brunswick, Cumberland, Prince Edward, Mecklen-

burg, Charlotte, Halifax, Henry and Pittsylvania. Many settlers of Kentucky originated in this section of Virginia.

The first three issues contain a variety of records for many of the counties covered, including will book abstracts, tithable lists, family cemeteries, powers of attorney, church records, indentures, marriages, militia fines, guardian bonds, Bible records and brief accounts of individual families.

Each issue contains forty-eight pages. The text is printed by offset from typed copy. We hope an annual index will be included to enhance the reference value of the journal.

Those with an interest in Southside Virginia will find this new journal worthy of their support. It is reasonably priced.

WAR OF 1812 GENEALOGY. George K. Schweitzer. 1983. 69 pp. \$7.00. Order from the author, 7914 Gleason Road, C-1136, Knoxville, Tennessee 37919.

Dr. Schweitzer has once again issued a specialized genealogical research guide providing valuable information. This booklet is concerned entirely with locating data on ancestors who served in the War of 1812.

Following his usual format, Dr. Schweitzer begins with a concise historical discussion of the War of 1812, which provides a chronological history of the battles, a discussion of causes, maps and a brief bibliography. Original record sources available for research and providing documentation of service are discussed and located. Particular emphasis is given to records at the National Archives and state archives, but information on other record sources and printed primary materials is also provided. A listing of principal surviving sites ends the text.

As with all Dr. Schweitzer's works, this is a very helpful treatment and should be consulted by those researching the period of the War of 1812. Since so many Kentuckians participated significantly in the conflict, it should be especially interesting to readers of *The Kentucky Genealogist*.
