FOREWORD

The film rented under this program is the same National Archives film that was previously available under the now terminated lending program operated from their Texas facility.

The film identification numbers shown in this catalogue are identical to those in the existing National Archives catalogues. Either catalogue may be used to identify film for rental under this program.

INTRODUCTION

Federal decennial population census schedules contain a wealth of information for genealogists as well as for historians and social scientists. They are of use to the family historian and researcher interested in westward expansion, the status of free and slave labor, regional and local history, immigration, and so forth. Often they contain evidence for proving citizenship.

As a rule the information gathered in each successive census is progressively more detailed. The schedules for the period 1790-1840 show the names of enumerated heads of families only, other members of the family being simply tallied by age groups, sex, and race (white or Negro). All subsequent enumerations, however, list each individual in a household by name with exception of the slave schedules for 1850 and 1860, which show only the name of the owner and number of his slaves by age group and sex. The 1850 census was the first to record each person's age, occupation if over age 15, and place of birth. If the parent of a person enumerated in the 1870 schedules was of foreign birth, that fact is indicated. The 1880 census adds the relationship of each individual to the head of the family.

The 1880 card index lists only those entries that relate to households including a child age 10 or under. The cards give the names, ages, and birth-places of all members of such households; and there is a separate cross-reference card for each child age 10 or under whose surname is different

from that of the head of the household in which he is listed. The cards are arranged by State or Territory and thereunder by the Soundex system; that is, alphabetically by the first letter of the surname, thereunder by a number representing the sound of the surname, and thereunder alphabetically by given name. The cards giving the names of persons in institutions are usually at the end of a State. A guide for the use of the Soundex system is reproduced as an appendix to this list.

Most of the 1890 population schedules were destroyed or badly damaged by fire; the few surviving segments have been microfilmed. The 1890 special census of Union veterans and widows of Union veterans of the Civil War gives information about the military service of each veteran named and the post office address of each listed person who was living at the time of the enumeration.

Positive microfilm copies of the original population schedules for 1790-1890 and the 1890 special census schedules enumerating Union veterans and widows of Union veterans of the Civil War are available for rental under the Census Microfilm Rental Program.

This catalog is arranged chronologically, thereunder by State or Territory, and then by county. Given for each microfilm publication is its number, total number of rolls, and a complete list of the microfilm rolls, showing for each roll its number and contents.

Federal Population Schedules

First Census of the United States, 1790. M637. 12 rolls.

These are the original census schedules for 1790. Schedules for some counties are missing. No schedules are known to exist for Delaware, Georgia, Kentucky, New Jersey, Tennessee, and Virginia; apparently they were destroyed during the British attack on Washington during the War of 1812. The 1790 schedules for Virginia which appear on microfilm publication T498 were reconstructed from State enumerations.

1880 SOUNDEX INDEX

Index (Soundex) to the 1880 Population Schedules. 2,367 rolls. 16-mm.

The card index to the 1880 census schedules has been reproduced by the National Archives as a separate microfilm publication for each State or Territory. The index, however, is not to every name in the census schedules, but only to those entries for households in which there was a child, or children, aged 10 or under. The cards give the names, ages, and birth places of all members of such households; and there is a separate cross-reference card for each child aged 10 or under whose surname is different from that of the head of the household in which he is listed. The letter at the beginning of the Soundex code is the first initial of the last name of the head of the household, the number a phonetic code for the name, and the letter in () is the first initial of the first name of the head of the household. A guide to the use of the Soundex system is found in the Appendix on page 90.

Eleventh Census of the United States, 1890. M407. 3 rolls.

Most of the 1890 population schedules were so badly damaged by fire in the Commerce Department Building in January 1921 that they were disposed of. Only a few schedules are extant.

1. ALABAMA, Perry County (Perryville Beat No. 11 and Severe Beat No. 8)
2. DISTRICT OF COLUMBIA, Q, 13th, 14th, R, Q, Corcoran, 15th, S, R, and Riggs Streets, Johnson Avenue, and S Street
3. GEORGIA, Muscogee County (Columbus); ILLINOIS, McDonough County (Mound Twp.); MINNESOTA, Wright County (Rockford); NEW JERSEY, Hudson County (Jersey City); NEW YORK, Westchester County (Eastchester); and Suffolk County (Brookhaven Twp.); NORTH CAROLINA, Gaston County (South Point Twp. and River Bend Twp.) and Cleveland County (Twp. No. 2); OHIO, Hamilton County (Cincinnati) and Clinton County (Wayne Twp.); SOUTH DAKOTA, Union County (Jefferson Twp.); TEXAS, Ellis County (J. P. No. 6, Mountain Peak, and Ovilla Precinct), Hood County (Precinct No. 5), Rusk County (No. 6 and J. P. No. 7), Trinity County (Trinity Town and Precinct No. 2) and Kaufman County (Kaufman).

Index to the Eleventh Census of the United States, 1890. M496. 2 vols. 16-mm.

This index covers the names appearing on the few surviving 1890 population schedules.

Special Schedules of the Eleventh Census (1890) Enumerating Union Veterans and Widows of Union Veterans of the Civil War. M123. 118 rolls.

An act of March 1, 1889, provided that the Superintendent of Census in taking the Eleventh Census should "cause to be taken on a special schedule of inquiry, according to such form as he may prescribe, the names, organizations, and length of service of those who had served in the Army, Navy, or Marine Corps of the United States in the war of the rebellion, and who are survivors at the time of said inquiry, and the widows of soldiers, sailors, or marines." Each schedule calls for the following information: name of the veteran (or if he did not survive, the names of both the widow and her deceased husband); the veteran's rank, company, regiment or vessel, date of enlistment, date of discharge, and length of service in years, months, and days; post office and address of each person listed; disability incurred by the veteran; and remarks necessary to a complete statement of his term of service. Practically all of the schedules for the States Alabama through Kansas and approximately half of those for Kentucky appear to have been destroyed, possibly by fire, before the transfer of the remaining schedules to the National Archives in 1943.

Guide to the Soundex System

The Soundex filing system, alphabetic for the first letter of surname and numeric thereunder as indicated by divider cards, keeps together names of the same and similar sounds but of variant spellings.

To search for a particular name, you must first work out the code number for the surname of the individual. No number is assigned to the first letter of the surname. If the name is Kuhne, for example, the index card will be in the "K" segment of the index. The code number for Kuhne, worked out according to the system below, is 500.

Soundex Coding Guide

Code	Key Letters and Equivalents
1	b, p, f, v
2	c, s, k, g, j, q, x, z
3	d, t
4	l
5	m, n
6	r

The letters a, e, i, o, u, y, w, and h are not coded.

The first letter of a surname is not coded.

Every Soundex number must be a 3-digit number. A name yielding no code numbers, as Lee, would thus be L 000; one yielding only one code number would have two zeros added, as Kuhne, coded as K 500; and one yielding two code numbers would have one zero added, as Ebell, coded as E 140. Not more than three digits are used, so Ebelson would be coded as E 142, not E 1425.

When two key letters or equivalents appear together, or one key letter immediately follows or precedes an equivalent, the two are coded as one letter, by a single number, as follows: Kelly, coded as K400;

Buerck, coded as B620; Lloyd, coded as L300; and Schaefer, coded as S160.

If several surnames have the same code, the cards for them are arranged alphabetically by given name. There are divider cards showing most code numbers, but not all. For instance, one divider may be numbered 350 and the next one 400. Between the two divider cards there may be names coded 353, 350, 360, 364, 365, and 355, but instead of being in numerical order they are inter-filed alphabetically by given name.

Such prefixes to surnames as "van," "Von," "Di," "de," "le," "Di," "D'," "dela," or "du" are sometimes disregarded in alphabetizing and in coding.

The following names are examples of Soundex coding and are given only as illustrations.
